PROFESSIONAL SUMMARY

Passionate and results-driven Undergraduate Software Engineer with hands-on experience building end-to-end full-stack web, mobile, and desktop applications. Proven track record delivering scalable solutions across event management, finance, healthcare, hospitality, retail (POS), library systems, and AI-powered predictive analytics. Strong foundation in modern JavaScript/TypeScript ecosystems (React, Next.js, Node.js), Flutter/Dart, Java (Spring/JavaFX), PHP, and databases (MySQL, PostgreSQL, Firebase, Supabase). Experienced with RESTful APIs, authentication, real-time features, push notifications, role-based access control, and data visualization (Power BI). Seeking entry-level to junior software engineering, full-stack, mobile, or backend development roles.

WORK EXPERIENCE

Data Entry Operator

Hatton National Bank – Head Office | March 2026 – Present

- Accurately process and enter high volumes of financial and customer data into banking systems while ensuring data integrity and strict compliance with bank policies and regulatory standards.
- Utilize MS Office Suite and Power BI to organize datasets, generate operational reports, and extract actionable insights that support departmental efficiency.
- Maintain confidentiality of sensitive banking information and consistently meet accuracy and turnaround targets under high-pressure production environments.

EDUCATION

BSc (Hons) Software Engineering

ICBT Campus, Sri Lanka (in partnership with UK universities) | 2023 – 2026

Higher Diploma – ICET Certified Developer

Institute of Computer Engineering Technology (ICET), Panadura (in partnership with TVEC) | 2025 – 2026

- Relevant Coursework: Web Development, Mobile App Development, Database Management, Software Engineering Principles, Object-Oriented Programming

Diploma in Information & Communication Technology

ICBT Campus, Sri Lanka | 2023 | Grade: Merit

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Java, PHP, Dart, Python, HTML5, CSS3
Frontend	React, Next.js, Vite, Tailwind CSS, React Router, Leaflet / React-Leaflet, Recharts
Mobile	Flutter (Dart), Cross-platform (Android / iOS / Web)
Backend	Node.js, PHP, Java (Spring / JavaFX / Swing), Flask (Python), REST APIs, JWT Auth
Databases	MySQL, PostgreSQL, Firebase (Auth, Firestore, Storage), Supabase (PostgreSQL + Realtime)
AI / ML	Scikit-learn (Random Forest Classifier & Regressor), Pandas, Joblib, Model Serialization
Tools & Others	Git / GitHub, Power BI, MS Office, FPDF, JasperReports, Docker basics, VAPID Web Push, Geolocator, OpenStreetMap, UI/UX Design, Performance Optimization

SELECTED PROJECTS

AI-Powered Flood Risk Prediction & Early Warning System for Sri Lanka

Full-Stack • Python (Flask) • React • PostgreSQL • Scikit-learn • Web Push

- Built a production-style full-stack system that scrapes real-time river level data from the Disaster Management Centre, runs Random Forest regression & classification models to predict flood risk levels (Low/Medium/High/Critical), and issues location-based Web Push alerts.
- Features interactive Leaflet maps, historical trend charts (Recharts), JWT authentication with role-based access, and an admin dashboard for triggering predictions and broadcasting alerts.

Naadanu-ICBT Event Management System

Full-Stack • TypeScript • React (Vite) • Supabase • Tailwind CSS • Python (Web Push)

- End-to-end platform for ICBT Computing Society talent show: participant registration, audition scheduling, admin dashboard, real-time announcements, public voting with IP-based fairness, and automated push notifications.
- Deployed with Vercel + Railway; used React Router, ESLint, Supabase Auth/Realtime/PostgreSQL, and a dedicated Python notification microservice.

Full-Stack Financial Management Web Application (ICBT Computing Society)

Full-Stack • TypeScript • React (Vite) • Supabase • Tailwind CSS

- Role-based finance tracker (Members vs Treasurers) with transaction management, monthly budgets, file uploads, CSV export, dashboard analytics, and secure Supabase authentication + Row Level Security.

Pharmacy Inventory & Sales Management System

[Desktop](#) • [Java 17](#) • [JavaFX](#) • [MySQL](#) • [Maven](#) • [JasperReports](#) • [MVC](#)

- Comprehensive pharmacy desktop application featuring role-based login (Admin/Staff), inventory with expiry tracking, sales & invoicing, supplier management, and professional PDF reports via JasperReports.

Lucky Resort Front-Desk Management System

[Cross-Platform](#) • [Flutter \(Dart\)](#) • [Firebase \(Firestore\)](#)

- Real-time front-desk operations app: room availability grid, guest booking with NIC & A/C preference, automatic bill calculation (A/C vs Non-A/C rates), revenue tracking, and checkout workflow stored in Cloud Firestore.

Elite Shine Cleaning Service

[Mobile](#) • [Flutter \(Dart\)](#) • [Firebase \(Auth, Firestore, Storage\)](#) • [Geolocator](#) + [OpenStreetMap](#)

- Marketplace-style mobile app connecting customers and professional cleaners. Supports job posting with location/date details, job acceptance, payment tracking, two-way reviews, and real-time status updates.

Brightway Library Management System

[Web](#) • [PHP](#) • [MySQL](#) • [FPDF](#) • [HTML/CSS/JavaScript](#)

- School library system with separate librarian and student portals: book & student CRUD, checkout/return workflows, activity logging, password hashing, and PDF report generation.

DailyMart POS – Point of Sale System

[Frontend](#) • [HTML5](#) • [CSS3](#) • [Vanilla JavaScript](#) • [LocalStorage](#)

- Fully responsive browser-based POS for a supermarket scenario: product catalog, cart with live tax/total calculation, product CRUD, checkout receipts, and order persistence via LocalStorage. Works on mobile, tablet, and desktop.

City Nursing Home Management System

[Desktop](#) • [Java Swing](#) • [File-based storage](#) • [Role-based access](#)

- Multi-role desktop application (Manager, Cashier, Consultant) for patient registration, consultant availability tracking, bill calculation with tax, and administrative user management.

ADDITIONAL INFORMATION

- **Languages:** English (Professional Working Proficiency), Sinhala (Native)
- **Availability:** Open to remote, hybrid, or Colombo-based full-time / internship / junior roles
- **Strengths:** Clean code, responsive & user-centered design, end-to-end ownership of features, rapid learning of new stacks, attention to data integrity and security best practices
- **Interests:** Full-stack development, mobile applications, AI-assisted systems, fintech & healthcare domain software, open-source contribution
